MoliMed for men active and protect.  
 Security where men need it.

# MoliMed for men active and protect.

Secure, reliable and discreet.

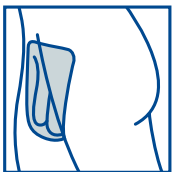

MoliMed for men active and protect are innovative and unique products from HARTMANN. Men with bladder weakness are not only seeking qualified advice, they also have very specific requirements for a product solution.

Hartmann now presents innovative products that has been specially designed for the male anatomy, thereby offering the desired security for carefree daily life.

## MoliMed for men is easy to apply.

**1** Apply the product as closely to the body as possible.

**2** Penis and scrotum are surrounded by the cuff system.

**3** Remove tape and fix to the underwear.

## MoliMed for men active

A special pouch-shaped form to fit contours of the body; ideally suited for the discreet management of slight urinary incontinence in men.

## MoliMed for men protect

A special V shape with inner anti-leak cuffs to cover the whole urogenital area for secure all-around protection; the specially absorbent core locks away large amounts of fluid quickly and securely.

# MoliMed for men protect

## Allround Protection System

The new cuff system and the special absorbent core structure ensure discretion and optimum leakage protection.

## Breathable material

The air-permeable, textile backsheet creates a comfortable skin climate for wearing comfort.

## V-shaped fit

Specially designed for the male anatomy to ensure an optimum fit.

## High absorbency

The special absorbent core also locks away larger amounts of liquid, no matter where they occur, quickly and securely.

## Maximum discretion

Odour binding Cydex molecules lock odours reliably away.
